DETAILED ACTION

This is a response to the amendment filed on 3/7/2005. Claims 1-20 are pending and are under examination.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Spence (USP 4,549,100), newly cited prior art. Figure 3 of Spence shows a reset circuit (Q7, Q3, Q4) for a latch circuit (Q5, Q6) having bistable pair of transistors connected to a supply voltage (ground), the reset circuit comprising a first transistor (Q7) connected to the supply voltage, a second transistor (Q3 is diode connected transistor having drain and gate connected together) connected between said first transistor and a first port (134) of the latch via transistor Q8, wherein a gate terminal of said second transistor is connected to drain terminal of the second transistor at said first port, a third transistor (Q4 is diode connected transistor having drain and gate connected together) connected between said first transistor and a second port (144) of the latch circuit via transistor Q9, wherein the gate terminal of the third transistor is connected to a drain terminal of the third transistor at said second port, wherein transistors of said latch circuit (Q5, Q6), said first, second and third transistors (Q7, Q3, Q4) are all n channel type as called for in claims 13-14.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an

Art Unit: 2816

international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 15 and 16 are rejected under 35 U.S.C. 102(e) as being anticipated by Ang et al. (USP 6,147,515), newly cited prior art. Figure 2 of Ang et al. shows a comparator comprising analog input signal (Pad), a reference signal (REF), digital output signal (Out), said comparator comprising a latch circuit having a bistable pair of transistors (226, 229) coupled between a reset circuit (209) and a first supply voltage (ground), and a vertical latch (244-247) coupled between said first power supply and a second power supply (VCC) and coupled to said bistable pair of transistors via transistors (231, 233, 235, 237) having a first transistor (244), a second transistor (245) said first transistor being a first channel type (p type), said second transistor being of a second channel type (n type) as called for in claims 15-16.

Allowable Subject Matter

Claims 1-12 and 17-20 are presently allowed.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant's cited prior art has been considered.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2816

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
